Stainless steel SOLUTIONS

INNOVAZIONE, TECNOLOGIA, DESIGN FUNZIONALE

Innovazione, tecnologia, design funzionale e cura del particolare. Le soluzioni lavaggio di Artinox rivoluzionano il concetto di vasca tradizionale rispondendo ai criteri di eleganza e rigore essenziale nei volumi.

Innovation, technology, functional design and attention to detail. The washing solutions of Artinox revolutionize the traditional bowl's concept, and meet the elegance standards and the essential uprightness of volumes.

Innovation, Technologie, funktionelles Design und die Aufmerksamkeit auf das Detail.
Artinox Waschbecken revolutionieren das Konzept für die traditionellen Becken mit Eleganz und Klarheit.

Innovation, technologie, design fonctionnel et souci du détail. Les solutions lavage d'Artinox changent la traditionnelle conception de cuve en répondant aux critères d'élégance et de rigueur essentiels aux volumes.

LE SOLUZIONI LAVAGGIO R13

Le soluzioni lavaggio R13 dotate di angoli interni raggio 10 mm permettono una più agevole pulizia in cucina dove praticità ed ergonomia sono requisiti fondamentali.

The washing solutions R13 have the typical inner corners with 10 mm radius, this peculiarity enables an easier cleaning in a kitchen where functional capacity and ergonomics are substantial principles.

Die Waschbecken R13 mit dem Radius 10 mm ermöglichen eine einfache Reinigung der Ecken und Kanten. Zweckmäßigkeit, Ergonomie und Eleganz sind Grundprinzipien dieser Beckenform.

Les solutions lavage R13 avec rayon de cuve 10 mm, permettent un nettoyage facile de la cuisine où fonctionnalité et ergonomie sont principes fondamentaux.

Ampie e robuste vasche migliorano la praticità di utilizzo e sono veri complementi d'arredo dal design contemporaneo.

Wide and strong bowls, improving the functional capacity, they are real furniture pieces of contemporary design.

Breite und tiefe Becken verbessern die Ergonomie und sind zweckmäßig in Verbindung mit modernem Design.

Les grandes et robustes cuves améliorent la fonctionnalité tout en devenant de vrais objets du design contemporain.

COMPLEMENTI D'ARREDO

LE FINITURE ORO, ANTRACITE E . . .

Oltre ad essere fortemente caratterizzate dalla piletta quadrata, le vasche R13 sono disponibili anche nella versione Titanium nei colori oro, antracite e rame.

Un particolare trattamento che penetra all'interno della materia, l'acciaio inox AISI 304, rende le superfici quattro volte più resistenti ai graffi.

R13 bowls are strongly marked out by the squared drain pipe. These bowls are also available in Titanium model, coloured in gold, anthracite and bronze.

A particular process, pierces through the element (stainless steel AISI 304) and makes the surface four times more scratches-resistant.

Die R13 Becken betonen die quadratische Form mit dem kleinen Eckradius von 10mm.

Das Titaniummodell ist in drei Farben, Gold, Anthrazit und Bronze lieferbar.

In einem besonderen Prozess wird die Materialoberfläche behandelt und dadurch resistenter gegen Gebrauchsspuren.

Les cuves R13 se distinguent par leur bonde carrée et sont disponibles aussi en version Titanium, de couleur or, anthracite et bronze.

Un traitement particulier pénètre la matière (acier inox AISI 304) et rends la surface quatre fois plus résistante aux rayures.

MASSIMA QUALITÀ E LIBERTÀ DI INSTALLAZIONE

Massima qualità e libertà di installazione per un prodotto che Artinox propone in tre diverse situazioni. L'innovativo sopra-top che non necessita di particolari accorgimenti nella foratura del piano e agevola le operazioni di pulizia. Il filotop in armonia con gli elettrodomestici e la versione sottotop che assicura maggiore superficie sul piano di lavoro.

Highest quality and installation freedom for a product that Artinox offers in three different typologies. The innovative over-top bowl is very easy to built-in and simplify the cleaning operation. Flush-mount bowl is in harmony with household appliances and the under-mount bowl assures a larger working top surface.

Artinox ermöglicht drei verschiedene Montagelösungen. Einbaubecken, für den einfachen Plattenausschnitt. Flächenbündige Becken für den harmonisierenden Einbau in Verbindung mit flächenbündigen Elektrohaushaltsgeräten. Unterbaubecken, welche eine klare Arbeitsplattenoberfläche garantieren.

Qualité et liberté maximales d'installation pour un produit qu'Artinox propose dans trois différentes solutions. Le nouveau modèle à encastrer ne nécessite pas de précautions particulières pour le perçage sur le plan de travail et rends plus facile le nettoyage. La cuve à encastrer à fleur est en harmonie avec l'électroménager et le modèle sous plan autorise une large surface sur le plan travail.

The logo for ARTINOX, featuring the word "ARTINOX" in a bold, sans-serif font. Above the letter "I" is a stylized, curved graphic element that resembles a checkmark or a swoosh.
